Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-2 are rejected under 35 U.S.C. 102(b) as being anticipated by Ghoos, GB 2360845 A ("Ghoos").

Claims 1-2: Ghoos teaches the following:

a method for determining the gastric emptying by orally administering a test substance and measuring its dwelling time in the stomach (see Abstract), characterized in that the increase of  $^{13}\text{CO}_2$  in the exhaled respiratory air is determined before and after the oral administration of free  $^{13}\text{C}$ -octanoic acid in a form bound to egg yolk together with a standardized test meal (see p. 6), wherein body-related conversion factors are dispensed with, and characterized in that said test meal consists of a fried

egg into which the free  $^{13}\text{C}$ -octanoic acid is stirred (see p. 6), whereupon it is eaten together with a slice of toasting bread, 5 to 10 g of margarine or butter, followed by drinking 150 ml of water or coffee (see p. 6).
